The message followed shortly after news dispatches from Chicago declared that officials of the road there had made overtures to empoyes, now on strike. MEN AWAIT ORDERS

Lima trikers, however, greeted HOPE OF PEACE the announcement with little concern. They declared that the offer IN STRIKE GONE did not interest them individually or as union locals. They preferred, they said, to have the matter handled thru the national headquarters of the allied craft.

Lima strikers refused to consider an individual settlement, fearing that it might endanger the general effect of the strike.

The offers extended by the H. &. O. Railroad Company, they believe, is evidence of the alleged crumbling strength of the rairoads. The strikers declare that the rairloads are virtually on their last legs.

"Rabbit Man" Arrested in Gem City for Boy Murder

Crime Scene

Comery-co authorities believe. Layer confessed to Dayton police

following his arrest as the "rabbit man" who has been luring children from home with promises that he would give them pet bunnles. He was arrested when residents of

Riverdale followed him, after he was seen to entice two kiddles to fellow him. His object was to attack them, it is believed.

Layer told Dayton police that he met young Moore down town on May

19. He induced him to go to West Dayton. He promised the little

chap a rabbit.
When they reached a lonely spot on the commons, he seized the lad and strangled him to death.

Confession of the gruesome crimcame after hours of grilling and clears up one of the most baffling mysteries that has confronted the Dayton department in years. "I killed the boy, but I didn't

know that I had until several days later, when I read about it in the newspapers," he suddenly admitted, after steadfastly denying knowledge of the crime. After attacking the child, Layer went to Eaton and then to Rich-

To B. M. Jewell, President, Federated Shop Crafts

MY DEAR SIR: Without going into the merits of the strike you are conducting, I beg leave to differ with you on one point.

I have read most of your utterances printed in newspapers since your organizations walked out. I am disappointed in some of them. The attitude you appear to have assumed, judging from your statements, is not conciliatory. In any argument there must be a little give and take. You are dealing with institutions which are vital to my country and I hope you will not conduct your fight in such a manner as to lose the confidence of my peo-

EAR JOHN: Speed is a great thing when your department is going to a fire. I'm in favor of "steppin' on 'er" when there's a blaze, but John, why all the speed of the fillin department from the north when coming to Central while apparatus is out?

I am particularly concerned about the fast driving thru my husiness section. I saw that truck dash thru traffic and take chances at Main and High a few days ago that would do the boys credit in getting to a four-alarm fire. If it isn't necessary, why risk lives?

MY DEAR BYNG: That members of the city commission are opposing increase of salaries of city employes at this time is not surprising. With the necessary budget exceeding all possible income and a deficit already faced, it isn't difficult to understand why opposition has developed.

A lot of familiar diseases have their origin at the root of some infected tooth or from sums that are infected with pyorrhes, and inflam-matory condition of the gums about the necks of the teeth, which ultimately form pus.

If decay is not removed and the tooth filled, the enamel will break down and will cause a hole large enough to collect food, which will eventually rot, causing toothache and much pain. Illnesses which may result from decayed teeth are rheumatism, heart trouble, abcess, skin diseases, colds, boils and nervousness.

Don't wait for a tooth to ache, beore having it treated. It is usually too far gone to save when it aches. Have it ireated before it pains, It's much less painful to prevent toothache by taking care of the teeth and having them "overhauled"

The prevention of decay is painlessly and simply brought about. It is only when neglect allows decay to penetrate the inner pulp that

Cocoanut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very Mulsified cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. BASEBALL IS AT HIGH PEAK, TY COBB SAYS

today then ever before-more good ones in proportion to the poor ones-and it requires more of an all-round man to break in and stick in the big leagues than it did in the heydey of the departed "immortals"

This is the studied opinion of Tyrus Raymond Cobb, one of the greatest players of all time.

Cobb always has been an individual star and a

on the head every time he leaves the playing field. He holds the American League record for the highest batting average, .420, the highest lifetime average. around .370, has topped all competitors twelve times. nine in succession and now is fighting it out with George Sisier for this year's title. PULLS 'EM UP.

Late in 1920 Cobb succeeded Hugh Jennings as manager of the second division Detroit Tigers. He cleus of a club and now has an aggregation within hailing distance of first place.

"You don't know what a pitcher is giving you now," Ty said in the Tigers' club house after coming from a five to one defeat of the Yankees, in which he contributed two hits. "Pitching goes in cycles. Once it was the fast ball, then the curve, then the spit ball, then the emery ball and now it's a combination of everything."

lier" and that the new pellet in a large measure accounts for the abnormally long drives and the dozens of home runs that cluster the box scores.

Of alf that has gone from the game Ty regrets most keenly the fighting spirit of the old teams, the combative mood of men like himself who came into the profession when loyalty to his club was demanded and who fought as defenders and conquerors, not as interesting entertainers drawing great saaries for cold skill. "The 'old home town' has gone," he said.

the growlers were stung, 4 to 3. It was Don Coon who turned in the game for the Rotary by his nervy pitching. Deprived of his speed by a sore arm, he resorted to a tantalizing spitter and slow ball that had the Lions tearing their hair out. Coon ruled with an iron fist. He was threatened in some tight places, but slipped out without much dam-

age. "Red" Mertz the big parcel whom the Lions annexed, was the hitting star of the day, getting three sharp singles.

Rotes were the first to score. In the second inning a double by Sealts and a sizzler thru the box by Coon gave them one. Eddie Pierco tallied the second for Thompson clan in the next frame when he hit thru the box, was set down by Boop's wild heave at second and chased across on Thompson's sacrifice fly.

Succesive single by Schurr and Mertz and a wild throw by Sealts to third, gave the Lions their first run in the fourth. They went into a 3-2 lead in the next session, Burke walking and advancing on Mertz' single and tallying when Dr. Hay's drive slip ed thru Clark's fingers in left field and Mertz trotting home on

Seach's slap thru short. Reynold's hit, a sacrifice by Coon and an error at second tied the score for the Rotary in the sixth.. Then a Texas leaguer by Snyder scored

Should Read This.

LOS ANGELES — "Some time ago," write S Janie Bolin, "you sent me a supply of your wonderful Cream and Soap All I can say is that they are both magical. They take 10 years off a woman's looks. It is positively marvelout how they transform one's complexion. I have used the highest priced and most highly recommended Creams and Soaps on the market but we never found anything so good as Muttermilk Cream and Soap For the enclosed check will you please send me another supply. I could have procured this from my diugist but I did so want to tell you how much I appreciated and enjoyed their use."

The first application of Howard's Buttermilk Ceam will astonish you. It creates beauty almost like magic but the most beautiful thing about it is the fact that while it turns the dullest and most lifeless complexion to radiant leauty and makes red or rough arms and hands snowy white, yet there is not the slightest sign of its use. It actually vanishes from sight and the most heated atmosphere will not produce the sightest shuiness or greasiness of the skin.

It is absolutely harmless and will neither produce nor stimulate the growth of hair. Within 2; hours flowards' Buttermilk Cream is guaranteed to work a marvelous transformation If you cannot obtain locally send 10 cmis (sliver or stamps) for generous trial package of both Cream and Soap Howard Bross Co., Buifalo, N. Wheat Closes Unsettled-Corn Slightly Lower

CHICAGO.-Fresh upturns in the price of wheat resulted today from the apparently unpromising settlement of the rall and coal strikes Early transactions showed that bears were at a decided disadvant age, notwithstanding that receipts here were liberal, the estimated total being 450 carloads. Com plaints of car shortage at rura points continued and bedging sale. were quickly absorbed by shipping interests here. The opening which ranged from 1-4 to 1-2c higher with September \$1.13 3-8 to 1.12 1-2 and December \$1.14 1-8 to 1.14 1-4 was followed by moderate further gains and then something of a reaction. Corn and oats were firmer with wheat. After opening 1-8 to 1-2c higher, September 64 3-4 to 64 5-8, the corn market strengthened a little

Oats started unchanged to 3-8 higher, September 36 and held close to the initial figures. The whea close was unsettled, 2d

How I Got Rid

of Burning Feet
And Pains from Corns and Bunions
Without Soaking, Powders, Plasters, Etc., After Suffering Indescribable Foot Misery for 20 Years.

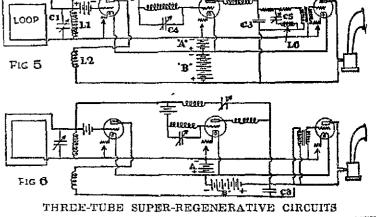

Prof. F. T. McIntyre, well known world tourist and lecturer, says: "For years I was compelled to wear shoes two sizes too large, to be able to walk with any comfort at all. I tried soaking my feet in medicated baths, powders, plasters and foot-treatments galore, but he burning callouses and soreness refused to go, while the pains from corns and burnons continued to torture both mind and body, which upset my entire nervous system. One day, very fortunately, I met a lady from Egypt who gave me a little box of Gypsy Foot Relief, which she said was a secret from the desert. After using it a short time, the awful burning stopped, the cal-louses came off in chunks, leaving the skin of my feet clean and smooth, while the pains from corns and bunions seemed to disappear as if by magic. From that time, I said a joyful good-hye to over 20 years of indescribable foot misery. I would not take a hundred thousand dollars to again go through those years of agony. Now I feel liketelling every footsufferer to get a box of the wonderful Gypsy Foot Relief."

Note.-Gypsy Foot Relief, referred to by Mr. McIntyre, may be applied to a minute, without fuss or bother.
